07 3294 8253

Vol 23

**1** Stanley 1926 SW catalogue, covers the prime time of tool making. Age and dirt marks but overall good and complete. 193 pages. G \$ 20-40

**2** Stanley 84 four-fold brass bound two feet boxwood rule. Minor discolouration. outside, inside VG. G \$ 20-30

**3** Stanley 136 four inch calliper rule with brass slide. G \$ 10-20

**4** Stanley 2 smoothing plane. Approximately 90% japanning is intact. Very good rosewood front and back. SW lever cap, notched logo Stanley cutter. G \$ 100-200

**6** Stanley 40 scrub plane. SW cutter, most japanning intact. Finish on wood worn away. Will clean to G+ \$ 50-100

**5** Stanley 100 squirrel tail block plane with notched logo cutter. Few paint splatters. G+ \$ 30-60

**7** Stanley cabinet scraper in box with straight and double sided cutters, both marked. Red finish. Little used tool. G+ \$ 40-90

**8** Mitteldorfer Straus made in USA bronze goat head hammer. Patent Jan 10, 1928 for a *new, original and ornamental design for a hammer*. Handle needs fitting. (s page 7 ) G \$ 120-240

**9** Stanley 1 smooth plane, early model with 1907 T logo on cutter. Plane is marked "DAMAGED" on one side but you'll have a hard time finding any reason for it! Maybe a tiny flaw in the casting? Close to perfect, only visible flaw is a replaced handle. G+ \$ 600-1,100

**10** Scarce Rabone architect's rule No 1123 with German silver fittings, outside G inside G+ plus a 13" triangular rule marked Devoe No 1096, some nicks G- \$ 40-70

**11** Stanley 220 made in USA block plane. F \$ 20-40

**12** Stanley brass/bronze belt buckle from 1978. 3" x 2 1/2" G+ \$ 20-40

**13** Stanley 118 low angle block plane with model number on side. Two paint marks front otherwise G+ \$ 20-40

**14** Stanley 203 tech school block plane. Most japanning intact. Light rust only. G+ \$ 25-50

**Tool Sales in March, June, Sept & Dec - to subscribe to free catalogues please write or email.**

The low estimate is the reserve – I accept any amount on or over the reserve. Send in your bids anytime. Deadline is 12.00 noon on auction day. The highest offer wins. If identical bids are received on a lot the first one in is the winner with one dollar added to clear the bid. I'll invoice you the day after the sale. Postage is extra. I accept bidding instructions for multiple bids.

I rate the condition of the lots from P (poor) Fr (fair) G (good) G+ (very good) to F (fine)

**15** Rare St Pierre Worcester, Mass welder's hammer (chipper) with Dec 31, 1940 patented wire brush attachment. VG hickory handle. G+ \$ 40-80

16

**16** Fine miniature polished steel tool set in leather case. There are 8 attachments in it – the small pocket knife serves as handle for all of them. I believe the maker's logo on all the bits is that of Dreimann, Germany ca 1950. Case closed measures a tiny 3 ½ " x 3". F \$ 30-60

**17** Stanley 93 butt rabbet gauge , complete with copy of instructions. G+ \$ 15-30

18

**18** Bedrock 605C . V logo cutter, one-line Bedrock lever cap and Pat 1910 in bed. Around 90% japanning is intact, the wood is very good. I glued down a tiny sliver that was loose on the top edge of the handle. G+ \$ 100-200

19

**19** Beech slitting gage with patented brass cutter clamp and boxwood thumb screw. I suspect it is English, the patent number would date it from 1884. If it's American it would be considerably older. Well worn tool. Cutter is good and ready for more work Fr \$ 20-40

20

**20** Pre Stanley Gage transitional plane Marked #4 on the back, marked Gage Vinland NJ on the front. Looks like all parts are correct though the rear tote does not have a metal top. Good overall condition with some cracks and splits to sole. Cutter low. Fr \$ 50-100

19

**21** Rare Mathieson 14C 9 inch ebony level with ornate brass decorations and brass feet. This is a partially restored tool with a replaced vial. The top plate is not screwed down properly. There are two hairline cracks on top and some chips along the edges. Well worth restoring. Fr \$ 100-200

21

**22** Siegley patent Aug 16, 1881 plough plane, complete with all parts. Only marking is the 1881 patent on the internal brass depth stop screw. These early models don't show up often. The bottom of the fence in the picture on the right is mounted inside out, I did correct it. G+ \$ 200-400

23

**23** Three recent brass violin maker's planes, two round both ways, the other straight. 4", 2" and 1 ½" long. New \$ 40-80

24

**24** Mathieson 3/4" beech dado plane. Nicker wedge is a replacement and needs a bit of adjusting. Maker's mark is faint. G- \$ 20-30

25

**25** Mathieson moving filletster plane in good condition. Rosewood nicker wedge is not original and there is some minor damage to the boxwood insert around the mouth of the nicker. Both cutters are good, plane is cleaned. G \$ 30-60

26

**26** Stanley 24 transitional smooth plane with WW logo on cutter (1909) Minor scratches to sole. G+ \$ 50-100

27

**27** Stanley 45 SW combination plane, complete with all parts and screwdriver in box. Close to 100% plating intact, marks on skate are storage grease. Box is tatty, plane and parts F \$ 120-220

28

**28** Stanley 35 smooth plane with Pat 92 cutter. Scratches on sole rest F \$ 60-120

29

**29** Stanley 3 low knob smoothing plane . 3 patents to 1910 in bed, T logo on cutter. Partially re-painted bed. Rosewood VG. G \$ 30-70

30

**30** Stanley 99 left-hand side rebate plane, complete with fence. No markings on cutter. Over 95% plating intact. G+ \$ 50-90

31

**31** Stanley 48 Tongue and Groove plane . Approximately 70% plating is intact. Presents well as is. G \$ 50-100

32

**32** Stanley 4 smooth plane. Looks like an A4 plane but it's cast iron. I suspect it was cleaned with chemicals that left it as a strange, aluminium look-alike tool. Rosewood G+ \$ 25-50

33

**33** Stanley 29 fore plane with Pat 92 cutter. Sole a bit worn but overall a good, clean tool. G \$ 50-100

34

**34** Snell heel shave with brass sole and fence. Small casting flaw in the handle otherwise in mint condition. F \$ 30-60

35

**35** Stanley 60 double spokeshave with V logo (1910) on cutters. Most japanning intact. G+ \$ 30-60

36

**36** Bedrock 605 with late kidney shaped hole in Stanley lever cap. Replaced hardwood handle and knob are free of chips or cracks. Very good SW cutter, over 95% japanning intact, minor surface rust on sole. A very good plane with late peripherals, well worth upgrading. G \$ 70-140

37

**37** Stanley 78 USA, complete. Pat 1910 in side, SW cutter, over 95% japanning intact. G+ \$ 30-70

40

**40** Rare Sargent 4307 type 1 knuckle-joint 7" block plane with cast iron Page patent lever cap. Sold between 1887-1909. Loss of japanning to the top of the lever cap, rest 95%. G \$ 30-70

38

39

**38** Alvin Sellens' ground-breaking *Stanley Planes*. 1975, hardcover, 216 pages. No dust jacket. G \$ 25-50

**39** Alvin Sellens 1978 *Woodworking Planes*. Hardcover, 232 pages. G \$ 25-50

41

**41** Stanley 90 bullnose plane made in England. Clean mouth, over 95 % plating intact. G+ 40-80

**42** Stanley 71 router made in USA Pat 07 with ½" cutter plus V cutter. G \$ 30-60

42

**43** Stanley 55 combination plane, complete with all attachments and 52 cutters in their boxes. One lid seems to be a replacement. This is a super clean tool with very good rosewood and well over 95% nickel plating intact. G+ 200-400

43

44

**44** Stanley 75 bullnose plane made in England. Minor surface rust on base, close to all japanning intact. G+ 20-40

45

**45** Bedrock 605 ½ jack plane. Round-sided model with 3-line Bedrock lever cap. Cutter is low, wood is good but from a late model plane. Edge of the lever cap has a few small chips. Japanning is around 80%. Sides and sole are clean. G \$ 60-120

46

**46** Stanley 40 ½ scrub plane with SW logo on cutter. Japanning inside 90% - not much is left on the outside. Handle has small crack in base. G \$ 60-120

47

**47** Stanley 4 low knob with 3 patents to 1910. V logo cutter low. 90% japanning, rust spots on side, tight hairline crack in handle. G- \$ 25-50

**48** Early Stanley 113 circular plane with side wheel and correct early cutter. Over 90% japanning. Handle has internal braze and cannot be removed. Still, a very good looking tool! G- \$ 70-130

48

**49** Early Stanley 113 circular plane with 80%+ japanning intact, clean sole and correct cutter. G+ \$ 80-140

50

**50** Sargent 408 (No 3 size) smoothing plane with VBM lever cap, mahogany handle and knob and correct cutter. Over 95% japanning intact. Mild surface rust and a few paint marks. G+ \$ 40-80

51

**51** Stanley 82 cabinet scraper with beech handle and knob. There is a hairline crack in the handle. Cutter with rounded edges is marked Stanley SW – the top edge is good and there is a lot of use left in it. G \$ 20-40

**52** Stanley 2 smooth plane, late model with notched logo on cutter. The brass depth adjuster screw is bruised, there is surface rust on one side, mild pitting on the other, sole is good. Blade and back iron will clean with minor pitting marks. Wood is good with most of the original finish intact. Japanning around 90% Fr/G- \$ 50-100

52

**53** Stanley 5 1/2 jack plane with SW cutter, rosewood knob and an attractive non-rosewood handle . Over 95% japanning is intact. 3 patents to 1910 in bed. Dirt marks and minor rust on sole from storage grease . G+ \$ 80-150

**54** Stanley 45 combination plane with a set of 20 out of 23 cutters in two cutter boxes. Lacks cam rest. Most plating intact, brown spots are storage grease. G \$ 50-100

**55** Stanley 35 transitional smoother with low V logo cutter. Good handle, overall good wood with minor chips and scratches to side and sole. Japanning is around 70%. G \$ 40-80

**56** Stanley 60 1/2 low angle block plane made in USA. Most japanning intact. G+ \$ 30-50

**57** Stanley 65 low angle block plane with knuckle-joint lever cap. Sound but covered in mild pitting spots. Fr \$ 20-40

**58** Stanley 103 block plane with lever-type adjuster. SW trademark on cutter. G \$ 20-30

**59** Stanley 7 jointer plane, rosewood handle and knob, SW cutter, 80% japanning. G \$ 60-120

**60** Stanley 6 fore plane with 3 patents to 1910 in bed. Low knob, 75% japanning. Rosewood front knob and replaced non-Stanley handle. Cutter low. Minor surface rust. G \$ 30-60

**61** Stanley 6C fore plane. Later model with notched logo on cutter. Mild pitting spots to side, very good rosewood, 80% plus japanning intact. G \$ 60-120

**62** Stanley 120 block plane with 6-point star lever cap and later beech knob. Most japanning intact, good R&L cutter. G \$ 30-60

**63** Stanley 130 double-sided block plane made in USA with early J logo cutter. B cast, most japanning intact. Later knob with hairline crack. G \$ 20-40

**64** Late model Stanley 220 block plane with screw-on lever cap. Little used. G+ \$ 20-40

**65** Stanley 9 1/2 adjustable block plane, late model with burgundy finish. G+ \$ 20-40

**66** Early Stanley 9 1/2 block plane with "Excelsior" shape. Moderate pitting spots both sides and sole. Fr \$ 20-30

**67** Stanley 5C , late model with notched logo cutter and kidney shaped lever cap hole. Bed re-painted. Sides have very mild pitting marks (cleaned) Non-Stanley handle, free of chips or cracks. Fr \$ 30-60

**68** Mathieson moving filletster plane with boxwood insert to side and sole and boxwood nicker wedge. Minor bruising to wedge. Cleaned. G \$ 30-60

**69** Sargent 613 16" beech jack plane with original Sargent cutter. VG plane apart from an age crack along the top, near the strike button. G \$ 30-60

**70** Stanley, Shelton and two other US made block planes. Fr \$ 10-20

**71** Stanley 3 smooth plane, late model with beech handle & knob. Most japanning intact. Surface rust on cutter. G+ \$ 30-60

**72** Stanley 103 re-painted, Stanley 220 wrong lever cap and knob, Stanley 110 split in knob. Fr \$ 20-30

**73** Vaughan & Bushnell VB 703 "poor man's Bedrock" 9" smooth plane with original cutter, good wood and most japanning intact. G \$ 30-60

**75** Stanley 81 cabinet scraper . Has most of the nickel plating intact but rosewood sole is worn thin along the front corners. Cutter is marked Stanley and has a 1/4" hole drilled into the middle. Doesn't affect the use of the tool. G \$ 30-60

**74** Stanley 12 scraper. Has lost most of the japanning and there are 4 holes drilled into the base – probably had a custom made wooden sole. Good for parts. Fr \$ 30-60

**76** Stanley 71 1/2 router with closed throat. Comes with one cutter. Patent October 29, 1901 on top. Nickel plating is dirty. Good wood. I believe this one will clean to G+ \$ 20-40

**77** Broad axe with very good custom made offset handle. Maker is W. Bradley. Cutting edge is 12". Mild to moderate pitting marks all over. G \$ 50-100

**78** Kendrick & Sons 1 pint glue pot. Re-painted a long time ago. Rust inside. G \$ 20-40

**79** Way coolest John Lennon style 1950s safety goggles with leather sides. G+ \$ 10-20

80

**80** Pat 1909 combination brace & wrench. Screw at the end of handle is not original and the adjuster screw for the wrench bit is missing. Good display piece. Fr \$ 60-120

**81** Lot of 3 Martin Donnelly auction catalogues listing thousands of tools  
G+ \$ 20-40

81

82

**82** leather pouch with handles, saw set and file for hand chain-saw. Made in England. G+ \$ 20-40

83

**83** Ebony & brass mortice gauge "Ultimatum" style with maker's name Wm Marples, Sheffield. Minor nicks along edge, free of cracks. Both pins intact. G \$ 30-60

84

**84** Two adjustable beech spoke-shaves, 10 1/2" and 11 1/2", both with brass sole plates. Well used but still in good working order. G \$ 25-50

85

**85** Large plumb bob with ornate top screw and steel tip. 4 1/2" long, weighs around 900 grams or 2 lbs. Knurled edges on screw dented in parts. Still G+ \$ 30-60

87

**86** Very rare Mathieson 8" brass-back dovetail saw with open beech handle. Blade is in exceptionally good condition with most of the large Mathieson Edinburgh etching intact. G+ \$ 70-150

**87** Kelly Black Raven small 2 lbs axe/hatchet head with very good embossing. Chips along the edges, some pitting marks and a hairline crack running along the back probably exclude it from use but still a rare and very collectable Kelly mark. Fr \$ 100-200

88

**88** 8" drawknife with folding handles marked Winsted Edge Tool Works made in USA Very good condition, minor rust only. G+ \$ 40-80

**89** Lot of four US car licence plates, solid tin models, all with very good graphics. G+ \$ 20-40

**90** Lathing hatchet marked Liberty Bell 1776. Stanley used this mark from 1876 onwards and they made a hatchet that looks very similar but I thought it was later. At any rate, a good tool with a rare mark. 13 1/2" long with a 3 1/2" cutting edge. G+ \$ 60-120

**91** Japanese carpenter's hatchet with distinctive grooves in the blade.

11" long with a 3 3/4" cutting edge. Thin bladed tool. I believe there are some Japanese markings on the reverse side of the blade. G \$ 40-80

90

91

8 see page 1

92

93 Stanley Yankee 3400 offset mini ratchet screwdriver. 4" long. G+ \$ 10-20

92 Stanley 95G die cast aluminium butt gauge in original box. Looks unused. F \$ 15-30

94

94 Stanley 32 one foot four-fold boxwood calliper rule with brass fittings. G+ inside and out. \$ 30-60

95 Vintage apple peeler with spring loaded cutter. In good working order. Maker's mark embossed on frame reads: *Pat May 24, 1898 Turntable '98 Made by Goodell Co, Antrim N.H. USA. 10" x 5 1/2".* G \$ 70-120

95

97

97 Stanley 85 razor edge spokeshave, 11" Long, 2 1/2" cutter, boxwood, very early model. G+ \$ 40-80

96

96 Merit made in USA four-fold one foot boxwood rule with brass calliper. G+ inside and out \$ 20-40

98

98 Stanley 3 SW box only. Complete with most of the label intact. Split sides. G \$ 15-30

99

99 Nose piece Stanley 72 chamfer plane with star screw. G+ \$ 40-80

100

100 Body Stanley 72 chamfer plane with Pat 85 on side. Most jappanning is intact, clean part, free of chips or cracks. G+ \$ 40-80

101

101 Two collectable brass planes. The chariot plane actually is a very old cast iron plane that was brass plated after it suffered some damage to the side. It has a replaced cutter and wedge. Bed 5 1/2" x 1 7/8". The small violin makers plane has a flat sole. It measures 1 1/2" x 5/8". Cutter is made from an old file. I believe this is a fairly old plane G \$ 40-90

102

102 Winchester 2006 knife collection. Hunting knife with 4" blade plus two pocket knives 3 3/4" long and 3 1/4" long. Unused F \$ 30-60

103

103 Stanley 100 1/2 double-radius block plane with Stanley notched logo cutter and model number embossed on the squirrel-tail handle. Close to 100% finish intact. F \$ 60-120

104 Fine set of Stanley 4 trammel points with 100% nickel plating intact. Box has a few storage dents. F \$ 30-60

104

**105** Stanley 60 ½ low angle block plane made in USA. Cleaned, 90% finish intact. G+ \$ 30-50

**106** Stanley 60 ½ low angle block plane made in England. Most japanning intact, minor paint splatters and rust. G \$ 20-40

**107** Clean 9 ½ block plane made in USA, Ward Master cutter, early Stanley lever cap. 90% finish intact. G \$ 20-40

**111** Stanley logo belt buckle with blue enamel background on solid brass. Marked *Limited Edition, Dynabuckle* on back. 3 ¼" x 2" G+ \$ 30-50

**108** Stanley 9 ¼ block plane made in USA. 90% finish intact. G+ \$ 20-40

**109** Stanley 9 ½ made in USA adjustable block plane. Notched Stanley logo cutter, 90% finish intact. G+ \$ 20-40

**110** Stanley 220 late model block plane made in England. 90% finish intact, some dirt. G+ \$ 20-40

**112** Stanley 66 ½ four-fold three feet boxwood rule . F \$ 20-40

**113** Super rare Stanley 12 ¾ scraper in excellent condition apart from a few scratches on the sole. Over 95% japanning is intact. SW logo on the brass lever cap screw, SW logo on the cutter. No rust and no pitting. Guaranteed genuine tool - the first one offered in any of my sales. G+ \$ 700-1,400

Detail of original screw attachment configuration for the soles.

**114** Little used 10" drawknife by James Swan Co. F \$ 30-60

**115** Stanley 101 thumb plane with notched Stanley logo cutter and red lever cap. Most japanning intact, minor paint marks. G+ \$ 20-40

**116** Stanley 101 thumb plane with notched Stanley logo cutter and red lever cap. Most japanning intact. G+ \$ 20-40

**118** Stanley 5 ¼ Four-Square household jack plane, manufactured 1923-1930. Very good condition with four square lever cap and matching handle. SW cutter correct for this vintage plane. G+ \$ 50-100

**117** Original Stanley 1955 catalogue. Minor scuff marks and small (taped) tear. G \$ 10-20

119

**119** Stanley 34 transitional 30" jointer plane. **This is the longest of all Stanley planes.** Not a common plane at all – I have only sold a few in twenty years of trading – Some dirt marks, some scratches, logo on toe faint. Pat 92 cutter. G \$ 120-250

121

**121** Stanley Powerlock belt buckle in the shape of a Stanley tape measure. 3 1/4" x 2 1/4". G \$ 20-40

**120** Stanley 34 transitional jointer plane, pre-lateral frog, bed must have been cleaned a while ago. Wood is "thirsty" and needs a good coat of fine oil. There are some age cracks along the top, toe and heel. Handle has a scratch on the side, it's not a break. J logo cutter. G \$ 120-250

120

**122** Bedrock 603 smoothing plane. Glued crack in handle, low SW cutter. One-line Bedrock lever cap. 60% japanning intact, no rust or pitting. G \$120-250

122

**123** Stanley 5 jack plane made in USA. SW vintage with Pat 1910 in bed. Full SW cutter, clean sole and sides, over 95% japanning intact. Nice rosewood, free of chips or cracks. G+ \$ 50-100

123

124

**124** Record 077A bullnose plane with detachable nose piece. VG, just on small spot of nickel loss. Crisp mouth, full length cutter. G+ \$ 70-150

125

**125** Scarce pair of Australian 5" bronze trammel points with steel tips marked CT (Carter Tools). G \$ 40-90

126

**126** 9 1/2" beech smoothing plane with closed handle and nicely shaped wedge. 2 3/8" Sorby cutter and steel sole. Minor discolouration along lower side. No maker's mark. G 30-60

127

**127** Stanley 4 1/2 C made in England. Beech handle and knob, approximately 80% japanning intact. Cutter low. G \$ 30-60

128

**128** Watchmaker's staking set in fitted box 7" x 5" x 5". Marked *Mosely Made in USA*. One of the cleanest sets I've come across. G+ \$ 100-200

**129** English sharpening steel with very ornate brass fittings. Marked Wingfield & Rowbotham. 16" overall length. G+ 30-60

**130** Unusual cast iron roller with spikes, marked *Myers Tire Akron, Ohio*. Reportedly used to roughen the inside of tyres. 7" long. G 20-40

129

130

131

**131** Moore & Wright 300 mm metric combination set, complete and boxed. G+ 50-100

**132** Mitutoyo 300mm metric vernier calliper in excellent condition. G+ 40-80

132

133

**133** Very good flooring saw by Atkins. Very good 18" blade with 10 TPI cut. G+ \$ 50-100

**134** Garlick & Sons, Sheffield *Lynx brand* flush cut saw with thin blade that works on the pull stroke. 6" blade, brass fittings and stained beech handle. Little used tool. F 40-60

**135** Lot of five Millers Falls carvers with beautiful rosewood handles. One of the ferrules is split. Minor rust spots. No maker's marks but they definitely are MF. Medium size 8" overall with 4" blades. G+ \$ 50-100

134

135

136

**136** Spear & Jackson B 23 made in England 12" / 300mm brass back tenon saw with a fine 15 TPI cut. Little used saw, minor storage rust on blade. G \$ 20-40

**137** Millers Falls original 1929 catalogue, pocket format, 185 pages. G+ \$ 15-30

138

**138** Half-size broad axe with short hickory handle. 16" overall, 6" cutting edge. There is a crack in the handle and a small chip in the cutting edge. Top has been banged around a bit, there is a maker's mark but I can't quite read it. On the plus side: attractive tool with very little pitting. Should clean up a treat. G \$ 50-100

139

**139** Stanley 35 transitional smoothing plane, SW vintage with partial decal on side and SW cutter. Minor paint marks and a few scratches on the sole. G+ 60-120

**140** Four-fold one foot boxwood calliper rule in very good condition inside and out. Marked 32. Most probably Stanley. G+ \$ 25-50

140

**141** Very rare W. Marples, Sheffield four-fold two feet ivory rule with German silver fittings. All 3 pins intact, some yellowing inside and out and some minor rust spots near the metal hinges. Free of chips or cracks. A beautiful rule with close to perfect patina. Super rare make, outstanding condition G+ \$ 200-400

**143** Steelyard scales or Roman steelyard balance with maker's mark. Also marked 100. 19" long. G \$ 30-60

**144** Stanley 148 tongue and groove plane with SW cutter. Most plating intact, few minor rust spots. G+ \$ 70-150

**145** Stanley 28" No 3 cherry level and plumb with SW logo on brass top plate and Stanley sticker on side. Both vials intact. Some bruising and chips along sides and corners. G \$ 20-40

**146** 4 Stanley chisels: 1 ½ " everlasting, 1", ½" & ¼ " No 750 socket chisels, all G / G+ \$ 50-100

**147** Stanley 9 ½ block plane, 90% japanning intact. Surface rust. G \$ 20-40

**148** Stanley 9 ½ block plane, 90% japanning, cleaned. G+ \$ 20-40

**142** Stanley 11 belt maker's plane with V logo cutter (1910). Plane is in very good condition apart from a chip on the mouth and a nick on the edge of the cutter. Most of the japanning – inside and out- is intact. G \$ 100-200

**149** Stanley Victor 20 circular plane with Pat 92 cutter. Plating is a bit dirty but should clean to very good condition. Sole and mouth VG. G \$ 70-140

**150** Rare Stanley 5 level pitch adjuster for wooden levels. Unfortunately the frame is broken - I super-glued it together and it's holding ok for display or use it for parts. Fr \$ 20-40

**151** American Window sash plane with double sides and double cutters & screw stem extensions. Marked 164 on toe plus maker's mark *Sandusky Tool Co, Ohio*. Clean plane in little used condition. 9 ¼", stock 2 ¼" wide. G+ \$ 50-100

152

**152** Stanley 5 1/4 junior jack plane with good rosewood handle. Notched Stanley logo on cutter, approximately 80% japanning intact. G \$ 60-120

153

**153** Stanley 79 side rebate plane, made in England. Complete with fence. Most plating intact. G+ 40-90

154

**154** Complete set of Vol 1-4 Audel's Plumbers and Steamfitters books. G \$ 25-50

155

**155** Stanley 8C jointer plane. 90% japanning intact, full notched Stanley logo cutter and good rosewood. Keyhole lever cap. Perfect user tool G+ \$ 150-250

*I wish you all a Merry Christmas and a Happy New Year.* My heartfelt thanks to my many loyal customers who kept me going for another year. Four more sales are planned for 2013; in March, June, September and December. I welcome consignment tools for all of them. I can accommodate from 1 to 800 tools in every single sale. It will cost you 10% commission plus \$ 4 per lot listing fee. Consignment tools for the March sale have to be in house by February 10, 2013 – if you consider participating in any of my sales please contact me well in advance.

On October 1st of this year I published my Stanley Planes manual. 100 copies sold within the first four weeks. I'm now on the second printing with some changes, additions etc. I plan to upgrade the catalogue with every new issue to keep it current. **The last three pages of this auction catalogue are sample pages of the Stanley Planes guide. Price is \$ 20, please order with your bids**

Hans Brunner

## Stanley Planes

a comprehensive guide to identification and value for collectors of Stanley planes with hints and tips accumulated over 20 years of full time tool dealing and countless mistakes you don't want to repeat!

*I received STANLEY PLANES today. Outstanding layout! Really a great guide for any level of collector. Easily, the best guide I have. Walter's big book is too big to carry around. The little price guide is inadequate when you are holding a tool and trying to decide it's true value.*

*Anyway Hans.....superb manual!! Every collector should have one and the "Brunner Guide" is affordable to anyone*

*T.G. Idaho*

- hints and tips on collecting
- cleaning and restoring
- a short Stanley history
- manufacturing details
- tricks of the trade
- what to check
- real market values
- detailed colour pictures

- A4 magazine format, full colour, full gloss, 44 pages

### Stanley 80 steel cased rabbet plane

offered 1877 - 1888

value \$ 80-150

9" long with 1 1/2" cutter

skewed cutter, steel sides and sole, beech infill

correct mouth in the plane  
on the left – enlarged  
mouth below

A steel infill plane by Stanley! Often overlooked because there are no prominent markings. Some models have the Stanley name punched in a circle on the shoulder, this mark is very weak and usually not visible if you don't know where to look (you can just make out the circle on the right hand side, in the middle of the front infill) All models have the Patent 10/5/75 imprinted on the shoulder, usually much deeper struck - see mark on back.

Problem area is the mouth. It's often enlarged or turned into a rebate plane type escapement. Those alterations reduce the value by half. The 1" version of this plane in the 1930s has a rod/screw that runs through the plane body and secured by a wing nut at the back. The cap is held in place by means of a rod/screw that runs through the plane body and secured by a wing nut at the back.

## Sample Page Stanley Planes

### Stanley 81 cabinet scraper

offered 1909 - 1942

value \$ 60-100

10" long with 2 1/2" cutter

Nickel plated with rosewood bottom. Few WW2 models are black japped. Premiums paid for flawless nickel plating and crisp edges on rosewood sole. Sole is often scratched or has bits missing. Also check the screws that hold the sole in place. They are often replaced with bolts and nuts. Original Stanley blades are hard to come by. More often than not you'll find these scrapers with replacement blades. Best replacements are old saw blades - the modern thick cutters don't have enough flexibility.

### Stanley 82 cabinet scraper

offered 1909 - 1958

value \$ 40-80

14 1/2" long with 3" cutter

Stowell's improved patent July 11, 1933

Head is black japped. Later models are shorter and last models have a red finish on the handle and knob. They also have a spring loaded clamping mechanism and are able to hold a u-bent cutter as well as the traditional straight blade.

### Stanley 83 cabinet scraper

offered 1896 - 1935

value \$ 60-100

9 1/2" long with 3-4 inch cutter

Cutter width varies from 3" - 4". Handles are maple in early models and beech in the later types. Rollers are often missing. 90% of these scrapers will come with a replacement cutter. Watch out for chipped corners on the bottom edge and missing or replaced thumb screws - they are not all that easy to find.

Watch out for replaced castors / furniture rollers. They are usually a lot smaller than the original and have a much shorter, round shaft. The roller in the picture is an original.

### Stanley 85 cabinet maker's scraper plane

offered 1904 - 1935

value \$ 350-700

8" long with 2" cutter

The tilting handles are an interesting feature, the fixed position/angle of the cutter is far less impressive. I frankly don't see why anybody would purchase this plane as a user. Stanley had far cheaper and far more versatile tools in their arsenal. Still, this tool has a lot of "plane-appeal" and is very collectable.

### Stanley 104 Liberty Bell smooth plane

offered 1876 - 1918

value \$ 70-120

9 inches long with a 2 1/8" cutter

Liberty Bell planes were first produced in 1876 to commemorate the 100th anniversary of the American Declaration of Independence (1776) - hence the 76 imprinted in the Bell on the lever cap

When buying one of these planes make sure you check the cutter and the back iron. They are held together with a special screw that extends into a "spur" at the back. The spur or little plate fits into the slot of the depth adjuster. Only Liberty Bell planes have this particular mechanism. It's often missing or replaced.

### Stanley 105 Liberty Bell jack plane

offered 1876 - 1918

value \$ 80-150

14" inches long with a 2 1/8" cutter.

Jack sized plane, otherwise identical to # 104

Steel body tends to rust quicker than cast iron. Stay clear of badly rusted examples – there will be pitting under the cover!

Type 1 and 2 have the 10/5/75 patent mark on the side and an ornate cap screw. Later types come with a nickel plated, modern type screw. Cutter and back iron are not interchangeable with other Stanley planes (except the # 105). The cap design was also used in the Liberty Bell transitional planes i.e. 135 but they are not interchangeable. The 135 has a longer lever cap. If you need spare parts you can only source them from a other 104 or 105.

## Sample Page Stanley Planes

### Stanley 110 block plane

offered 1874 - 1984

value \$ 20-40

star cap model \$ 80

shoe buckle \$ 300-600+

7" long with a 1 5/8" cutter

110 'shoe buckle' plane

Simple, non-adjustable general purpose block plane. Pictured are the Australian version on the left, late US model, six star cap and English model next. This plane had a very long production period that resulted in many different versions. The earliest types are rare to very rare and hardly ever show up. They can easily be identified by their decorative, open "shoe buckle" lever caps. Planes from the late 1870s and 1880s have a six point star cut out on the lever cap.

### Stanley 112 cabinet scraper plane

offered 1885 - 1943

value \$ 150-250

9" long with a 2 7/8" cutter

Cutters with Stanley markings are a plus. Tooothing irons for veneer work were available for this scraper plane. They are usually marked 22, 28 or 32 to indicate tpi (teeth per inch)

Integrates a scraper with a plane for a fine finish on cabinetwork and veneer. Some users prefer to sharpen the blade with a bevel, others cut it dead straight so that the leading edge does the work. It takes a bit of practice to find the correct angle for the job.

Type 1 has a beaded front knob and Bailey's Pat 1858 on the brass cap screw. Subsequent models have the Stanley Rule and Level Co embossed along the edges of the brass screw. Some planes will have the number 112 or S and B cast into the bed but others have absolutely no markings at all.

### Stanley 113 circular plane aka compass plane

offered 1877 - 1942

value \$ 100-200

10" long with a 1 3/4" cutter

Handy tool to work concave and convex surfaces on furniture, shop fittings and so on. In European countries these planes are often called *boat planes* but I doubt that they were of much use to a shipwright for building a boat.
