

2 Superb little steel hand drill, maybe a dental or a surgical tool. Chrome plated with rosewood crank handle. 7" long, no maker's mark. Plating is very good with just a few blank spots. G+ \$ 60-120

3 Possibly the most attractive hand drill ever made: Whitney patent 10 1/2" drill marketed by Tower and Lyon, New York N.Y. - the same company that sold the equally attractive Chaplin's patent planes. There are no markings on the drill, just those gorgeous red and gold decorations (striping) on all sides. Some dealers attribute Pat May 4 1886 to this tool - I found that Whitney had a patent for a twist drill bit approved under that date. There are no maker's markings on the tool. G+ \$ 120-250

1 Very rare 14" bronze-framed eggbeater drill. George Langford's excellent type study on Millers Falls #2 drills lists this drill as the first model or type N. It has all the Millers Falls features found in the malleable iron models, most noticeably the wrap-around frame that protects the main gear. Very few of these drills have changed hands which makes any type study a work in progress. To the best of my knowledge only 3 of these are documented, this one included! The patented Almond chuck used was patented in 1876, a date that would fit in with the Millers Falls history as well as research that suggests a starting date of 1878 for the famous # 2 drill. Whether Millers Falls made them, had them made or copied them might eventually be determined if more examples come to light but I would not hold my breath! G+ \$ 250-500

Antique Tools & Parts Sales in March, June, Sept & Dec - to subscribe to free catalogues please write or email.

The low estimate is the reserve - I accept any amount on or over the reserve. Send in your bids anytime. Deadline is 12.00 noon on auction day. The highest offer wins. If identical bids are received on a lot the first one in is the winner with one dollar added to clear the bid. I'll invoice you the day after the sale. Postage & handling are extra

I rate the condition of the lots from P (poor) Fr (fair) G (good) G+ (very good) to F (fine)

4 Another Whitney patent drill with original red and gold striping. This one has an added cast iron bit storage facility in the head – there is no cover on it. Apart from that it looks identical to lot 3 with even more of the original finish intact. 10 ½" long. G \$ 100-200

5 Early 10 ½" hand drill with bit storage covered by a rosewood screw top. Marked O.W.B. – I could not find anything on the maker but I'm sure it's an early drill from around the same period as lot 4. Re-painted gloss. Fr \$ 50-100

6 Millers Falls 04 small hand drill with improved chuck. Re-painted gloss (close to enamelled original) 8" long. Fr \$ 40-80

7 Millers Falls 4 (earlier version of the 04) Most of the original finish is intact. 8" long. G+ \$ 40-80

8 Millers Falls 4 drill. Partially repainted in good working order. Fr \$ 30-60

9 Millers Falls #4 eight inch drill in good working order but re-painted in black gloss. Fr \$ 25-50

10 A pressed steel 8" drill with red handle, reminiscent of MF Buck Rogers type but it's not and there are no maker's indication. G \$ 20-40

11 Re-painted MF 4 drill, identical to lot 9 but this one has some "gear-problems" due to damaged pinion teeth. P \$ 20-40

12 Millers Falls No 2A hand drill in original box. MF sticker on head, the ferrule between the shaft and the head is cracked, otherwise in fine condition. 14.5" long. Box is good. G+ \$ 60-120

13 Millers Falls No 04 8" hand drill in original box. This is the later model with improved chuck (1907-1914) Drill F, box good with some repair work done. \$ 100-200

14 Whitney patent 10 ½" drill marketed by Tower and Lyon, New York N.Y. Approximately 60% of the red & gold decoration is intact. Some rust spots. G \$ 70-150

15 Another Whitney patent 10 ½ " drill. Re-painted. Marked 423 in two places. This model started off black. Fr \$ 30-60

16 Goodell-Pratt 10" hand drill with bits in hollow handle. Lost all the plating on the centre gear, rest good. \$ 20-40

17

18

19

17 Millers Falls # 2 hand drill with wrap-around frame. These "framed" models were sold from 1878-1895. Cocobolo head without storage. 14" long. G \$30-60

18 Similar model with storage in head, early form G \$ 30-60

19 Similar model with storage, later model. G \$ 30-60

20

21

22

20 Millers Falls # 2 hand drill with cocobolo head with storage facility for bits and roller guide to front. Many collectors consider this model the best hand drill ever made. 14 ½" long, comes with side handle. Re-painted, otherwise G+ \$ 40-80

21 Millers Falls # 2 hand drill, "improved" model with two pinion gear drive. Stained hardwood handles. No side handle. All original and G+ \$ 30-60

22 Millers Falls # 2 hand drill, similar to lot 21 but with side handle. G+ \$ 30-60

23

24

25

26

25 Scarce first model Millers Falls No 1 hand drill with rosewood handle with storage facility. Sold around 1880. Lost all of the original finish but mechanically sound with good wood. 10 ½" long. G- \$ 30-60

26 Millers Falls No 1 hand drill with rosewood main handle, later model. Lost most of original finish but mechanically sound with good wood. Bit storage in handle. 10 ½" long. G \$ 30-60

23 Millers Falls # 980 tow-speed hand drill ca 1925 with mushroom head. 15 ¾" long – the biggest hand drill in this listing. Knurled ring shifter between the pinions allows smooth and easy gear change. No side handle. G \$ 30-60

24 Goodell-Pratt two speed hand drill, similar to lot 23 with some improved features. Drawback is the small and fiddly gear shift button. Side handle might be a replacement. G \$ 30-60

27

27 Millers Falls 97 two-speed breast drill (1912-1944) with 4 pinions, easy speed selector, adjustable crank handle and ratchet mechanism for continuous motion – a top tool with a lot of the original finish and most of the decal intact. 17 ½" long and heavy! G+ 40-80

28

28 Millers Falls 97 two-speed breast drill (1912-1944) similar to lot 27. Breast plate is painted green. No side handle. G \$ 25-50

30

30 Lot of 3 Millers Falls hand drills. From top: 980 two-speed, # 5 with cocobolo storage head, slight damage to outer rim of main gear and # 1 with cocobolo storage head and side handle. G \$ 40-70

31 Opportunity lot of 6 hand drills by Craftsman, Millers Falls etc plus a partial Whitney pat frame with gears. G \$ 30-60

32 Opportunity lot of 9 hand drills, mostly Millers Falls, all in original condition. G 40-70

32

33

33 Yankee 31A push screwdriver with 6 bits including one Phillips in box (taped with clear tape) plus a Yankee H 33 screwdriver with one bit in good box. G \$ 25-50

39

34

35

36

37

38

34 A.H. Reid Archimedean drill with simple square 3/8" chuck to take old style drill bits. 26" long when fully extended. Old fix to wood slide. G \$ 20-40

35 Quality Archimedean drill with "modern" 3 jaw chuck, wood head and slide. Marked H.G.B. 16" long. A\$ 20-40

36 A.H. Reid Pat Oct 12, 1882 Archimedean drill with brass tube, long wooden head and wood slide. G \$ 20-40

37 Goodell Bros., Pat July 22, 1890 marked on the brass ferrule of this early "Automatic Screwdriver" 16" extended. G \$ 10-20

38 Yankee 42 10" push drill with 6 bits in wooden storage tube. G \$ 15-30

39 Lot of two marking - and one mortice gauge, all with Sheffield maker's marks. Rosewood model is Marples. G \$ 20-30

40 Lot of 25 brace bits including 3 expansive bits, twist bits, centre bits, shell and spoon bits G \$ 20-40

40

41

41 Millers Falls # 2 hand drill with cocobolo head with storage facility for bits and roller guide to front. Many collectors consider this model the best hand drill ever made. 14 ½" long, no side handle. Lost most of the red striping. G \$ 35-70

42

43

42 Millers Falls # 5 hand drill, 12.5" long, two-pinion gear with side handle and bit storage in head. Stained hardwood. G \$ 20-40

43 Millers Falls #5 hand drill, earlier model with cocobolo head, no side handle, front even better than lot 42 with most of the red finish intact. G \$ 20-40

44

44 Large cast iron glue pot marked on bottom: Kendrick 1 ½ Pint. Complete, sound and useable, surface rust only. G \$ 20-40

45 Opportunity lot of four Millers Falls hand drills, all in good condition but re-painted in full gloss colours. Fr \$ 20-40

45

46 Early Dutch brass plumb bob with ring decorations and ornate finial. 3 ¼" long. G+ \$ 40-90

110 Two Black & Decker Gripmate clamps to be used with B&D Benchmate Unused in boxes. G+ \$ 10-20

111 Small electrician's brace with 2 1/4" throw. Made in Germany. Some loss of plating. G- \$ 15-30

112 Lot of 6 multi tool handles from different periods by various makers. G \$ 40-80

113 Stewart 1/4 - 1/2" tap wrench in original box. Little used. F \$ 15-30

114 Two sets of bicycle spanners. G \$ 5-10

115 Universal made in USA aluminium mitre clamp with bench mounting bracket. 15" long. G \$ 15-30

116 Two cast iron file handles marked Made in USA on thumb screws. G+ \$ 15-30

117 Two Stanley 203 bench brackets, both marked with maker and model number. G+ \$ 40-80

118 Stanley 59 dowelling jig with six tubes and depth gauge. Little used in box. G+ 25-50

119 4 quality hones including a 5" Norton Washita ; a King Barber black; a Carborundum round and a Pike Crystolon. G+ \$ 20-40

99 Starrett combination set on a 9" rule. All parts correct, complete with scribe. G+ \$ 40-90

100 Two lots of 3 precision scrapers by Moore & Wright (triangular, flat, curved half-round) The 6" set was marketed for tool makers, the 12" set for engineers. All G+ \$ 30-60

101 Marples 9" drawknife with hickory handles. Very little used tool, no rust, no pitting, just some dark age marks. G+ \$ 30-50

102 Valtock London automatic blowlamp, fuelled with methylated spirit. Comes in original box (lid missing) with tools and instructions. Unused G+ \$ 20-40

105 English raw plug set with holder, bits and brass size plate in pouch. F \$ 15-30

106 Stanley 18 8 inch T bevel. G \$ 10-20

120 Large brass plumb bob with knurled finial and steel tip. 5 ¼" long, weighs 3 ½ lbs or 1.6kg. G+ \$ 40-80

120

121 Outstanding pre-war Norris 15 ½" jack plane, dovetailed steel construction with rosewood infill and handle. Comes with the original and virtually unused Norris cutter fitted for this plane – number 4 in frog corresponds with # 4 on the cutter. I left the few minor spots of surface rust for the picture because I want to show the plane as I got it – unmolested and perfect. However, I do have to mention that the former owner's initials are carved into the toe. F \$ 600-1,200

121

122

122 Outstanding Stanley 278 rabbit and filletster plane, complete with d/s and original fence in good but taped box. Plane is fine with close to 100% japanning intact. F \$ 250-450

123

123 Stanley 238 weatherstrip plough plane with d/s and spacer rods. One cutter. Well over 95% japanning intact. F \$ 80-150

124

124 Stanley 39 ½ dado plane. Approximately 70% japanning intact. A very good, clean plane. Lacks cutter. Note: I include a 5/8" cutter with this plane. It can easily be cut to size. G \$ 70-120

125

125 Stanley 67 universal spokeshave, complete with both soles plus fence in original box. Box in fair condition with good label. Most plating intact, excellent rosewood and no splits in ferrules. G+ \$ 150-250

126

126 Nice little beech 8 ½" panel raiser with two fences, one rosewood. 2 ¼" skewed cutter. No maker's mark. G \$ 40-80

127

127 Stanley 148 7/8" match plane (T&G plane) with correct cutters and most of the nickel plating intact. G+ \$ 70-150

128

128 Rare 23 ½" transitional beech jointer by The Standard Rule Co, Unionville, Conn. This company started off as rule manufacturer and lasted from around 1872 to 1889. In 1883 they entered the plane market using an adjuster based on a Rust Bros patent granted October 30, 1883. In 1889 the company was taken over by the Upson Nut Co and plane manufacturing ceased soon after. Marked The Standard Rule Co No 33 Unionville, Conn. on the toe. Same markings plus Pat Oct 30, 1883 on the cutter. I have never seen one with a closed handle before – it might be a very good and early custom modification. The front knob is rosewood. G+ \$ 150-300

129

129 Clean Stanley 93 cabinet maker's rebate plane made in USA. Good early US cutter, most plating is intact. G+ \$ 80-160

130

130 Sargent 708 (# 3 size) auto set smoothing plane with most of the original finish intact. One tiny spot of rust/pitting on side should clean ok. Close to 100% japanning is intact. G+ \$ 90-180

131

131 Stanley A 226 zig-zag rule with brass slide extension. One small nick along the slide edge. G \$ 20-40

132

132 Disston No 92 mortice gauge in very good condition. One sliver of wood missing from top near screw G \$ 20-40

134

134 Stanley 35 transitional smoothing plane with Pat 92 cutter. Minor discoloration and scratches, good handle. G \$ 40-80

135

135 Stanley 191 rabbit plane, early model with ornate cap screw and ivy decorations on handle. Some paint splatters and dirt. Box and plane G \$ 60-120

133

133 Impressive large wire measuring machine 12" x 5" x 3 1/2", cast iron with tin dial housing. Would have stood on a shop counter to measure different lengths of wire. All dials in good working order. Bottom 10 feet, middle 100 feet, top 1000 feet. One of the legs snapped and glued. G \$ 100-200

136

136 Stanley 1 smooth plane, early model with Pat 92 cutter. All original and just about perfect with well over 95% japanning and absolutely no apologies. F \$ 800-1,300

137

137 Stanley 386 jointer gauge with close to 100% nickel plating intact. Great rosewood. Pictured without the spacer screws – I will include a perfect replacement set. G+ \$ 50-100

138

138 6" Davis level with clino Pat 1867. Restored i.e. re-painted, free of chips or cracks. G \$ 120-250

139

139 Stanley 40 scrub plane. Notched logo cutter, 95% japanning inside and out, good rosewood handle and knob. G+ \$ 60-120

140

141

142

143

144

145

140 Stanley 101 miniature block plane with R&L logo cutter. Most japanning intact G+ \$ 25-50

141 B Plane 102 with early back-lever on cap. 95% japanning. G+ \$ 20-40

142 Late Stanley 220 block plane with screw-on lever cap. G \$ 20-40

146 Bedrock 608C with SW cutter, Stanley lever cap and VG rosewood. Minor rust marks. G \$ 200-400

147 Sharmanco made in Australia - small plough plane with 3 cutters, depth stop and fence. G 20-40

148 Original Lufkin 1938 catalogue of precision tools. G \$ 10-20

149 Two Lufkin 6 foot zig-zag rules, one with brass slide extension. G \$ 20-40

150 Coal hammer with advertising on side. Some chips around the face. 6" long. G- \$ 30-70

151 Preston corner clamp with 3" capacity. Maker's mark on adjuster screw. G \$ 10-20

152 Little used Vaughan & Bushnell 1927 tool catalogue reprint, A 4 size, 60 pages. G+ \$ 20-40

153 Poster reprints Davis levels & Buck Bros chisels; Birmingham Plane Co and Stanley Quarter Century Club reprints plus a Martin Donnelly 1996 catalogue G \$ 20-40

154 Tower & Lyon (Union Hardware) 1904 *Fine Tools & Police Equipment* catalogue re-print 110 pages, 9"x 6" G+ \$ 20-30

155 *Metal Planes*, Norris 1914 - 1938 catalogue reprints with added colour illustrations. G+ \$ 20-30

156 Two tailors squares: *Rabone No 1513* 24" boxwood with brass corner. VG with minor water spots plus a 24cm wooden square *J. Greenfield & Sons, Sydney* with quarter inch plus metric scale. G \$ 20-40

157 Most unusual double bladed "axe" of French origin with maker's mark. Beautifully made tool - in my opinion of considerable age. Purpose unclear. 12" long, axe blade with 3 3/4" edge, gouge end with 1 3/4" edge. G+ \$ 100-200

158 Long bladed French axe with short handle. 10" blade with 5 1/2" cutting edge. Maker's mark on blade. G- \$ 60-120

159 Excellent large French pole axe head. 11" with 6" cutting edge. Marked Talbot 51. G+ 60-120

160 Small 8 1/2" ice pick. This would not have been a tool for serious mountaineering- rather a tool that went on the end of a walking stick. G \$ 20-40

161

161 Stanley 97 marking gauge with pin one side and roller on the other. G \$ 15-30

162

162 Lot of 12 wooden plumber's bobbins from 1/2" down to 1 1/4" G \$ 20-40
